

Sippi Cup Competition

Packaging Guidelines

Competition Samples should be packaged in 2x2 or 4x4 black mylar bags, and **MUST MEET ALL COMPLIANCE/REGULATORY REQUIREMENTS OF THE MMCP**. Package labels may be placed on the back of the bags, and will be packaged into judge kits with the label facing down. Sample packages must also include the unique identifier provided by 3MA (see the table below for more info). 3MA may provide mylar bags if needed
(Send request/address info to info@medicalmarijuanams.com).

Each Competitor must submit (Via email) a list of the product names that they're entering into the competition. 3MA will then assign a unique identifier to each category participant according to the table below. This identifier must be present on the front of the packaged sample (sticker or permanent marker).

- Hybrid Flower (HF)
- Sativa Flower (SF)
- Indica Flower (IF)
 - Vapes (V)
- Concentrates - Live-Resin (LRE)
- Concentrates - Live-Rosin (LRO)
- Concentrates - Distillate (D)
 - Edibles (E)
 - Pre-Rolls (PR)
- Infused Pre-Rolls (IPR)
 - Topicals (T)

Please ensure that each sample pack is equal to or under the product size limits in the table below:

Category	Max Size
Sativa Flower	1 gram
Indica Flower	1 gram
Hybrid Flower	1 gram
Infused Pre Rolls	1 gram
Vape	.5 -1 gram
Edibles	25 mg
Concentrates	.5g
Topicals	N/A

If your specific sample exceeds the product size limits above, please reach out directly to Henry Crisler:
